SERVICE PLAN OPTIONAL TYRE & RIM 3000

This cover is only available if it reflects on your policy schedule and you have paid the fee accordingly.

TYRE COVER INSURANCE SECTION

UNFORESEEN ROAD HAZARDS

You are covered for damage caused to your vehicle's tyres, which are fitted to the insured vehicle and in use, as a result of an unforeseen road hazard. These road hazards are defined as potholes and foreign items in a normal national or domestic maintained road.

COVER LIMIT

The maximum amount covered per tyre is set out in the policy schedule.

CLAIM LIMIT

You are limited to a maximum of 2 tyres per 12-monthly payments received or 12-month period.

WAITING PERIOD

Under this plan there is a specific waiting period of 30-days. Damage occurring during or before this period is not covered.

BETTERMENT

Betterment will apply to all tyre claims. Liability for passenger vehicles can be determined using the table below.

LOWEST TREAD DEPTH	LIMIT OF LIABILITY
8 mm	100%
7 mm	87.5%
6 mm	75%
5 mm	62.5%
4 mm	50%
3 mm	37.5%
2 mm	25%
1 mm	12.5%
Less than 1 mm	No Cover

IMPORTANT

Betterment for all other types of vehicles, is determined by calculating the percentage of used tread.

EXAMPLE

A tyre with a replacement value of R1 000 has 7mm remaining when suffering damage as a result of a pothole.

On a passenger vehicle 12,5% betterment is applied. Therefore, the indemnity limit is 87,5% and the amount payable is R875.

On a utility vehicle, if the original tread of the tyre was 10mm, this means that 70% of the tyre tread is remaining and therefore betterment of 30% will be applied. Therefore, the amount payable is R700.

EMERGENCY REPAIRS

If emergency repairs or replacement is needed the benefit will be limited to 50% of the claim or 50% of the limit whichever is the lesser. Emergency Repairs are classified repairs where it is not possible to register a claim prior to completing the repairs. All documentation, media and the damaged tyres must be retained as proof of the event.

RIM COVER NON-INSURANCE SECTION

RIM & MAG SCRATCHES

In the event the vehicle's rims sustain scratches as a result of normal use on any maintained South African road we will pay for the repair of rim scratches as a result of damage sustained through the day to day use of the vehicle. Cracked or Buckled Rims are not covered under this benefit.

COVER LIMIT

The maximum amount covered per tyre is set out in the policy schedule.

CLAIM LIMIT

You are limited to a maximum of 2 rims per claim and 1 claim per 90-day period. This is measured from the date of the most recent claim.

All repairs to damaged rims must be completed before a new claim will be accepted. Proof of the completed repairs must be provided in the event of a new claim.

WAITING PERIOD

Under this plan there is a specific waiting period of 30-days. Damage occurring during or before this period is not covered.

NOT COVERED UNDER TYRE PROTECT

1. Tyres where the remaining tyre tread is below the legal limit at the lowest point.
